Important Note for PSLM 2013-14 data

Due to some technical reasons, initially the location of quarter was at 4th place in the processing code and region was given 6th place, which created problem in making Stratum variable during finalization of data. Therefore   for the convenience of researchers, coding scheme was revised and now every file contains hhcode (the old one), hhcode_new(revised one) and psu_new and stratum variable.

Both coding schemes are attached , Coding scheme revised is for hhcode_new and stratum and psu_new
