To:

Cc: Chiara GUIDO, IEA <Chiara.GUIDO@iea.org>

Dear Colleagues,

The **International Energy Agency** and the **Department of Alternative Energy Development and Efficiency of Thailand**, are pleased to announce the third **Energy Efficiency Training Week for Southeast Asia**.

In recognition of Thailand's ASEAN Chairmanship 2019, the training will take place in **Bangkok** from **1 to 4 April 2019**.

The Energy Efficiency Training Week aims to build capacity among **junior policy makers from Southeast Asia**, and to equip them with greater knowledge and skills to develop and implement effective energy efficiency initiatives in their respective countries.

The Training week consists of five parallel courses on: energy efficiency in 1) **buildings**; 2) **appliances and equipment**; 3) **industry**; 4) **urban planning**; and 5) **indicators and evaluation**. Selected participants will attend one of the five courses depending on the area which best matches their role.

Each course offers a mix of lectures, interactive discussions and practical exercises that allow participants to learn from international best practice and each other. The programme also includes joint sessions on assessing the potential for energy efficiency, tracking progress, and communication campaigns as well as a special focus on the social and economic benefits of energy efficiency measures.

We encourage you to share this opportunity with your wider network of energy efficiency professionals in Southeast Asia.

For more information, please visit our [website](#) or contact Ms Chiara Guido (chiara.guido@iea.org).

Many thanks.

Best regards,

Brian Motherway

Head, Energy Efficiency Division

International Energy Agency (IEA)
