N.B: Area of Sugarcane Crop for the year 2010-11 shows an increase of 4.8% as compared to 2009-10. Area increased due to lucrative price of last year produce received by the growers which encouraged to put more area by shifting Cotton area into Sugarcane in Punjab. The Production shows an increase of 12.0% over the previous year, which is due to intermittent rain during growth session and corresponding increase in area and average yield.
