## NOTES:

- 1. Total number of women in the relevant category (know about, ever used, currently using), expressed as a percentage of all currently married women aged 15-49 years.
- 2. Know about family planning method: The 2005-06 PSLM & 2001-02 PIHS asked all currently married women aged 15-49 if they knew about family planning. The table is based on the answers given to this question: i.e. if the women know of any method, mentioned either spontaneously or after probing.
- 3. Ever used family planning method: Expressed as a percentage of all currently married women aged 15-49 years.
- Currently using family planning method: Expressed as percentage of all currently married women aged 15-49
  years.
