## FOREWORD

Social Indicators of Khyber Pakhtunkhwa upto District level report is an effort to provide a wide range of data on social indicators like Population, Education, Agriculture, Health and Crime Statistics, which will be particularly useful for Demographers, Economists and Sociologists as well as Researchers and Policy Makers. The present edition is the 2<sup>nd</sup> in the series following release of population and housing census 2017 results. The last report was published over twenty year ago in 2002.

The social indicators report of Khyber Pakhtunkhwa provides the insights of Population, Housing, Health, Agriculture and Education at the district level for assessing the impact of policy programme implemented during the reference period. It is an effort to provide the sets of data or statistical information to study and analyzing the quality of services and human behaviour. Nevertheless, the latest update of the publication is an attempt to mirror quite a few social factors as a means to raise awareness to help stay focused on the pivotally of social behavior and will pave a way for future demand and policy programmes for the sustainable development. I must appreciate the endeavors of Pakistan Bureau of Statistics for providing such a useful and informative report about the socio economic indicators. I would also like to appreciate the staff of Social Statistics Section for their hard work and untiring efforts for accomplishment of the task.

I hope that researchers, planners and economist would find this document useful for their specific pursuits. Comments/suggestions for improvement are welcomed, and will be highly appreciated.

This and other published provincial district reports are also available on [www.pbs.gov.pk](http://www.pbs.gov.pk).

## PREFACE

This publication is the second attempt of collection, compilation presentation of data on socio-economic indicators at district and provincial level. It contains socio-economic indicators regarding Khyber Pakhtunkhwa province at district level covering six major areas (1) Population (2) Housing (3) Agriculture (4) Education (5) Health and (6) Miscellaneous Indicators (Crime, Road Accidents and ICT etc.).

Social Indicators report provides the comprehensive information about the different social indicators, which are the basic need for the formulation of policy making, future projection and comparison with the past policies at the district level. Every effort has been made to include the latest available data to make this report comprehensive informative and useful document for planners, economist and researchers. Pakistan Bureau of Statistics appreciates all kinds of the cooperation provided by the provincial departments/agencies and Federal Ministries for the timely supply of the requisite data.

I avail this opportunity to acknowledge the efforts of entire team of Social Statistics Section for compilation of the report, which would have not been possible without enormous hard work and dedication of officers and officials. Any suggestion to improve the coverage and contents of the future update of publication will be welcomed and highly appreciated.

## GENESIS OF THE REPORT

The compilation of Social Economic Indicators at District level of Khyber Pakhtunkhwa , 2024 owes to the untiring efforts of the following officers/officials of the Pakistan Bureau of Statistics.

Mr. Fazil Mahmood Baig  
Deputy Director General

Mr. Rizwan Bashir  
Director

Mrs. Aisha Khaliq  
Chief Statistical Officer

Mrs. Zahida Parveen  
Statistical Officer

Mr. Muhammad Munir  
Statistical Assistant

Mr. Inam-ul-Haq Abbasi  
Statistical Assistant

Mrs. Shehla Nosheen  
Statistical Assistant

Mrs. Munaza Jabeen  
Statistical Assistant

Mr. Shabbir Ali  
Steno Typist

# POPULATION

# KEY FINDINGS OF POPULATION

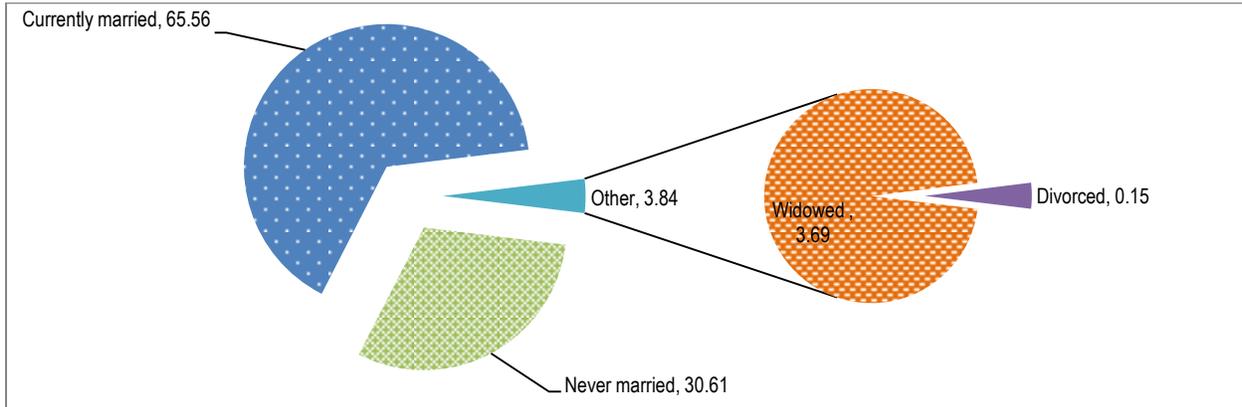

## Population of Khyber Pakhtunkhwa Province by Sex, Census 2017

## Population of Khyber Pakhtunkhwa Province by Area, Census 2017

## Marital Status by type Census 2017

## Disability of Khyber Pakhtunkhwa Province, Census 2017

# Chapter - 1

## Population

Khyber Pakhtunkhwa is third largest province of Pakistan in terms of population. The province falls into three main geographical divisions: Rugged mountainous regions in the North and West, comparatively narrow strip of a plain, the plateau between the Indus in the East, and the hills in the West and Indus region of the Hazara. This chapter provides the detail information about population trends, gender disaggregation, growth, density, area, dependency ratio, marital status and distribution of population by economic activity.

### Population Size and Growth

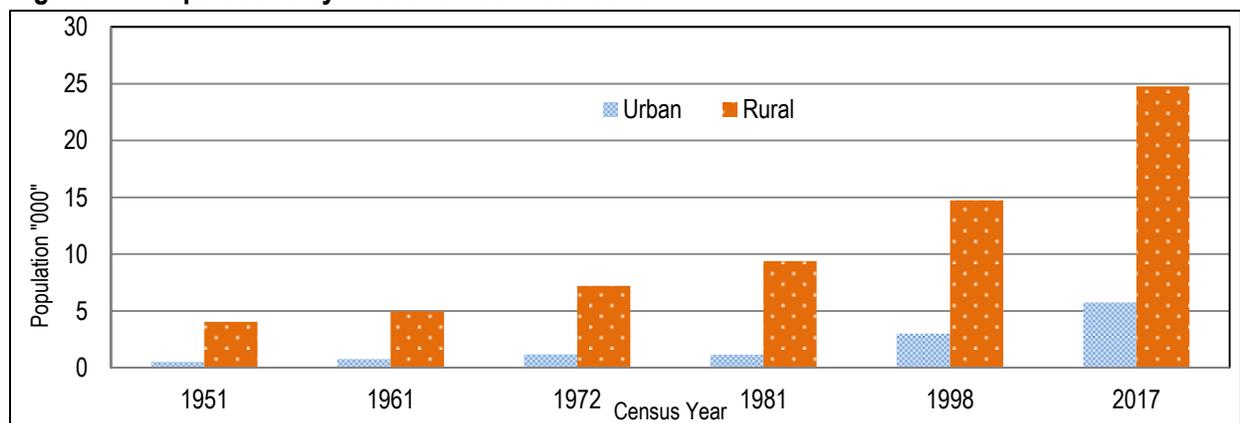

According to the 6<sup>th</sup> Population and Housing Census, 2017, the population of Khyber Pakhtunkhwa is recorded as 30.51 million which suggests an increase of 71.94% as compared to last Census conducted in 1998. Thus, average annual growth rate has been reported as 2.9% during the intercensal period of 1998 to 2017. Detail information about population and growth rate is given in table 1.1:-

**Table: 1.1 Population and Growth Rate of Khyber Pakhtunkhwa Since 1951**

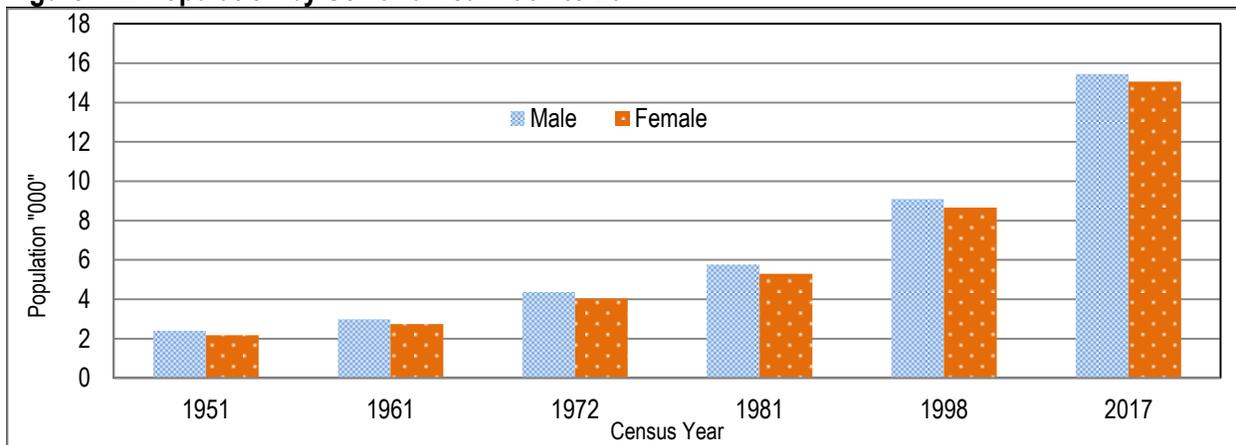

Year	Population (in "000")						Growth Rate (%)
	Overall	Urban	Rural	Male	Female	Transgender	
1951	4,557	505	4,052	2,392	2,164	N.A	N.A
1961	5,731	757	4,973	2,986	2,745	N.A	2.4
1972	8,389	1,196	7,193	4,363	4,025	N.A	3.2
1981	11,061	1,165	9,395	5,761	5,300	N.A	3.4
1998	17,744	2,994	14,750	9,089	8,655	N.A	2.8
2017	30,509	5,735	24,773	15,444	15,062	2	2.9

Source: Pakistan Bureau of Statistics

**Figure: 1.1 Populations by Area and Year 1951 to 2017**

**Figure: 1.2 Population by Sex and Year 1961 to 2017**

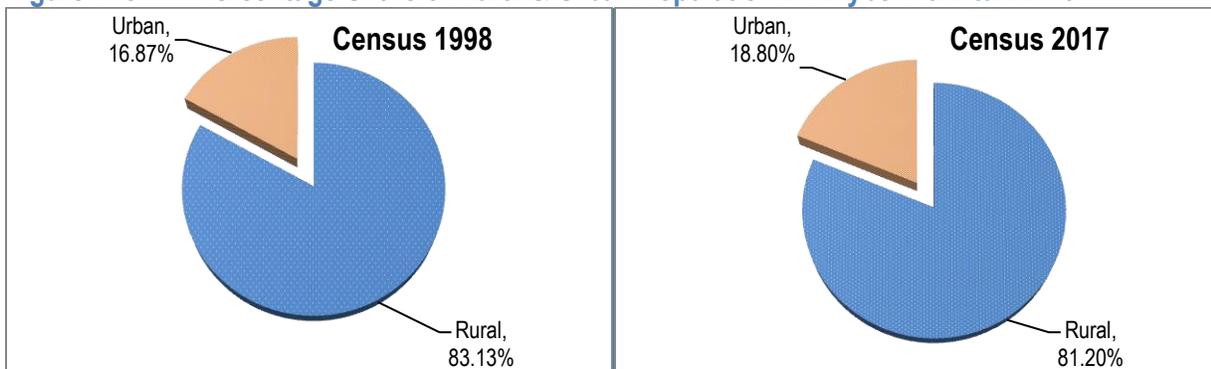

### Urban - Rural Population

Rapid urbanization is one of the foremost hallmarks of the demographic shift in Pakistan. KP is also witnessing urbanization but it is not rapid as other parts of the country. This indicates that situation is different in KP Province. Therefore, rural population (24.773 million) in KP is observed to be much greater than the urban population (5.735 million). As a result only a minor increase has been observed in the urban population as compared to the previous census (Figure 1.3).

The urban population of Khyber Pakhtunkhwa is counted as 5,735,428 in Census 2017, which is 18.80% of total population, while the share of rural population is 81.26%. Thus, share of rural population decreased by 2 % from 83% in Census 1998 to 81% in Census 2017.

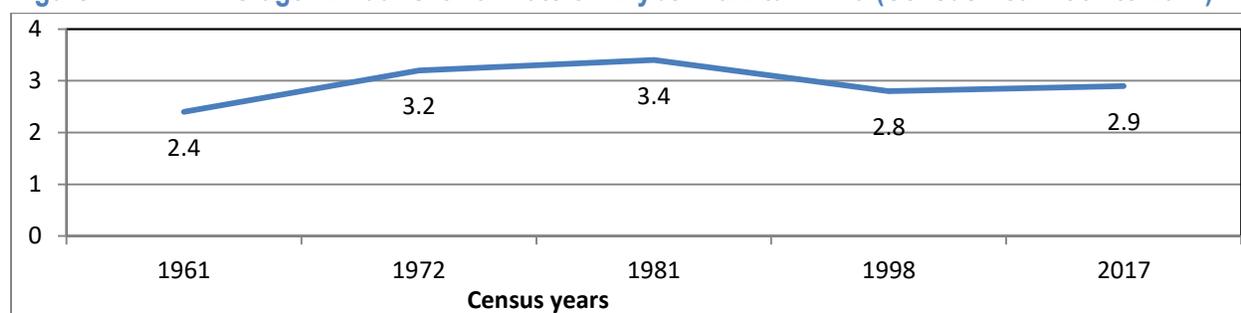

**Figure: 1.3 Percentage Share of Rural & Urban Population in Khyber Pakhtunkhwa**

### Growth Rate

Average annual growth rate was 2.4% in 1961 which peaked in 1981 with 3.4% growth rate. It decreased to 2.8% in 1998, however in 2017 it rose to 2.9% showing a reverse trend despite Government's efforts to reduce fertility rate. According to National Institute of Population Studies population (NIPS) projections, if this trend prevails Khyber Pakhtunkhwa population will cross 38.4 million mark by 2035.

**Figure: 1.4 Average Annual Growth Rate of Khyber Pakhtunkhwa (Census Year 1961 to 2017)**

## Population Density

The population density has increased to 409 persons per square kilometer as compared to 238 people per square kilometer reported in 1998. Peshawar division is the most populated area having a population density of 1849 persons per square kilometer followed by Mardan and Bannu divisions with 1,259 and 459 persons, respectively. D.I Khan Division is the least densely populated division with a population density of 224 per square kilometer almost half of the provincial average (Table 1.03). The average household size in Khyber Pakhtunkhwa decreased from 8.2 in Census 1998 to 7.9 in Census 2017.

**Table: 1.2 Population Density, Sex Ratio and Average Household Size of Khyber Pakhtunkhwa**

Indicators/Year	1998	2017
Population density (per sq.km)	238	409
Average household size	8.2	7.9
Sex ratio	105	103

Source: Pakistan Bureau of Statistics

## Dependency Ratio

The distribution of the population by age, sex, and residence is a primary demographic classification. It also provides information on trends on population growth based on the size of age brackets, including dependency groups. According to census 2017, 43 percent of the population is under the age of 15 and 3 percent is age 65 and above, with the bulk of the population falling in the 15-64 age bracket. Therefore, the age dependency ratio (the sum of the population under age '15' and the population age '65 and over' relative to the working-age population age "15-64") is 88.34 percent. The dependency ratio appears to be higher among males, and in rural areas (Table 1.03) for district wise figures refer to table 1.06.

**Table: 1.3 Distribution of Population by Selected Age Groups Census 2017**

Age Groups	Total				Urban				Rural			
	Total	Male	Female	Trans-gender	Total	Male	Female	Trans-gender	Total	Male	Female	Trans-gender
Total Population ("000")	30,509	15,444	15,062	2	5,735	2,974	2,760	1	24,773	12,470	12,302	1

# HOUSING

## KEY FINDINGS OF HOUSING

### Housing Units by Tenure, Census 2017

### Period of Construction (Own Housing Units), Census 2017

### Source of Drinking Water, Census 2017

## Source of Lighting

Electricity 89.89 %

Kerosene Oil 1.0%

Gas Lamp 0.31 %

Other 8.8%

## Source of Cooking Fuel Used

Wood 72.70%

Kerosene Oil 0.90%

Gas 25.52 %

Other 1.70%

## Chapter - 2

### Housing

This chapter presents information about housing facilities such as sources of household drinking water, number of rooms, distribution of housing units by tenure, period of construction of owned housing unit, sources of fuel availability for cooking purposes and sources of lighting.

#### Household Population and Composition

A household means a group of persons living together who have collective arrangements for cooking/eating. A person living alone was also considered to constitute a household. The distinguishing characteristics of a household are its common cooking arrangements.

#### Household Tenure

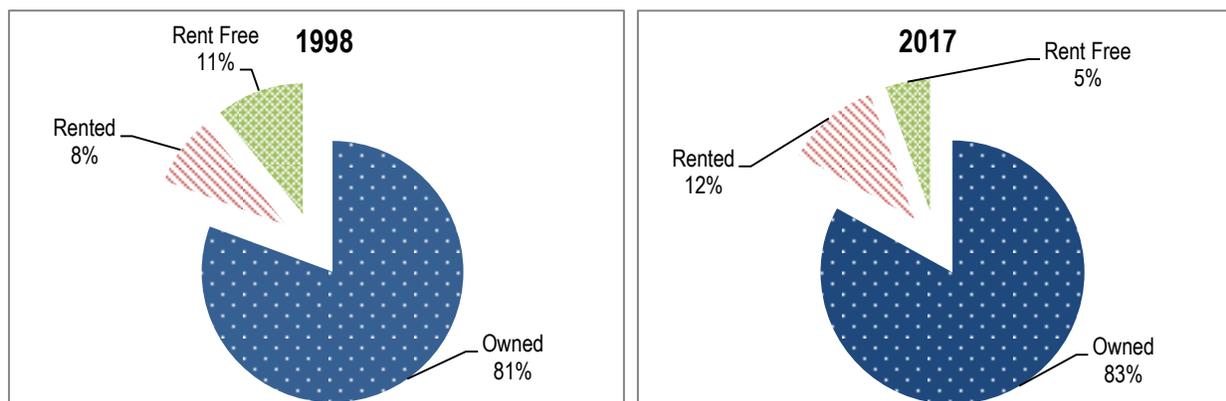

In Khyber Pakhtunkhwa majority of households are living in owned housing units. The share of owned housing unit in Khyber Pakhtunkhwa is 83.05%, rented units are 11.48% and remaining 5.47%, are rent free housing units. Comparative census results reveal that the proportion of owned housing unit increased from 80.61% in census 1998 to 83.05% in Census 2017. The rent free housing units have decreased from 10.88% in Census 1998 to 5.47% in Census 2017. Further, it has been observed that share of rented units is higher in big cities and in urban areas. For example, in Peshawar 29.01% households are living in rented units. Moreover, in Bannu 43.23% are living in rented units in urban areas, which is over seven (7) times higher as compared to rural areas of Bannu which is estimated as 5.52%. This trend is found to be consistent for all districts in the Khyber Pakhtunkhwa, see table 2.01.

**Table: 2.1 Percentage Distribution of Housing Units by the Tenure in Khyber Pakhtunkhwa**

Year/Housing Unit by Type	1998			2017		
	Overall	Rural	Urban	Overall	Rural	Urban
Owned	80.61	84.01	63.65	83.05	87.11	66.06
Rented	8.50	4.42	28.93	11.48	6.90	30.68
Rent free	10.88	11.58	7.42	5.47	6.00	3.26

**Figure: 2.1 Percentage Distribution of Overall Housing Units by Tenure**

### Housing Units by Lighting Facility

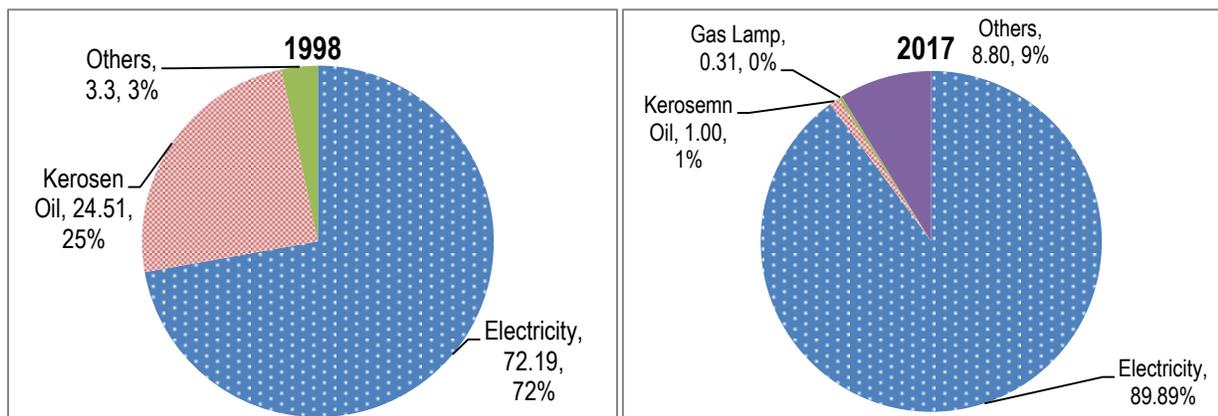

According to Census 2017, electricity is the major source of lighting in Khyber Pakhtunkhwa. In Census 1998, 72.19% of the housing units had reported electricity facility which increased to 89.89% in Census 2017, registering an increase of nearly 18% points between two periods. Housing units' use of kerosene oil has dropped drastically from 24.51% in 1998 to only 1.12% in 2017. Further comparison also reveals that electricity as source of lighting facility has also improved in rural areas from 67.47% in Census 1998 to 87.92% in Census 2017. Abbottabad and Haripur are in close proximity and top users of electricity as main source of lighting. To be specific, 98.43% households in Abbottabad are using electricity for lighting followed by Haripur 97.13%, Malakand 96.80%, Mardan 96.70% etc. In contrast, in district Torgar only 32.70% and in Kohistan 57.04% use this facility and found to be at bottom of the list, see table 2.05. It is interesting to note that some households have started using gas lamps, which could be attributed to load shedding or availability of gas in new areas (Table 2.2).

**Table: 2.2 Percentage Distribution of Housing Units by Source of Lighting Facility**

Source of lighting	1998			2017			Overall Percent Change
	Overall	Rural	Urban	Overall	Rural	Urban	
Electricity	72.19	67.47	95.76	89.89	87.92	98.13	17.7
Kerosene oil	24.51	28.76	3.25	1.00	1.12	0.52	-23.51
Gas Lamp	-	-	-	0.31	0.36	0.06	0.31
Others	3.30	3.77	0.99	8.8	10.60	1.28	5.5

**Figure: 2.2 Percentage Distribution of Housing Units by Source of Lighting Facility**

**Housing Units by Type of Cooking Fuel Used in Khyber Pakhtunkhwa**

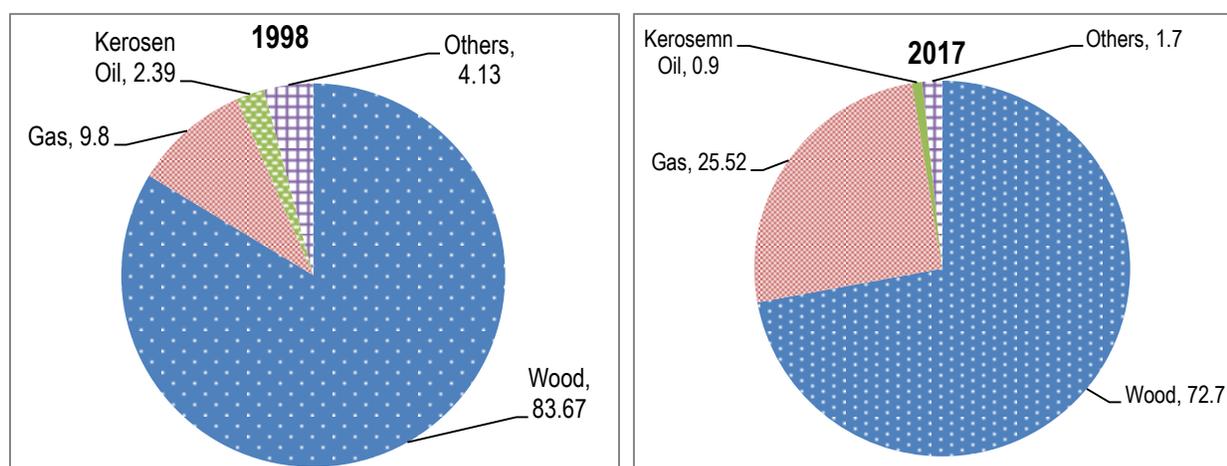

According to Census-2017, 72.70% of housing unit are using wood as cooking fuel which has dropped by 10.97% between two periods as it was observed to be 83.67 in Census 1998. The use of gas as a cooking fuel is higher in urban areas as compared to rural areas across the Khyber Pakhtunkhwa, see table 2.06.

**Table: 2.3 Percentage Distribution of Housing Units by Type of Cooking Fuel Used in Khyber Pakhtunkhwa**

	1998			2017		
	Overall	Rural	Urban	Overall	Rural	Urban
Wood	83.67	91.69	43.46	72.70	83.28	28.42

# KEY FINDINGS OF AGRICULTURE

## Land Utilization 2020-21

**Cultivated Area**  
1,853 (000 Hectares)  
22.15%

**Uncultivated Area**  
6,514 (000 Hectares)  
78.85%

## Area and Production by Crops 2020-21

### Crops

Wheat	Tobacco	Sugarcane	Rice
<b>Area</b>			
761.8 (000 Hectares)	27,850 (000 Hectares)	107.4 (Hectares)	64,916 (Hectares)
<b>Production</b>			
1,362 (000 Tones)	77,015 (Tones)	5,628 (000 Tones)	158,534 (Tones)

## Chapter-3

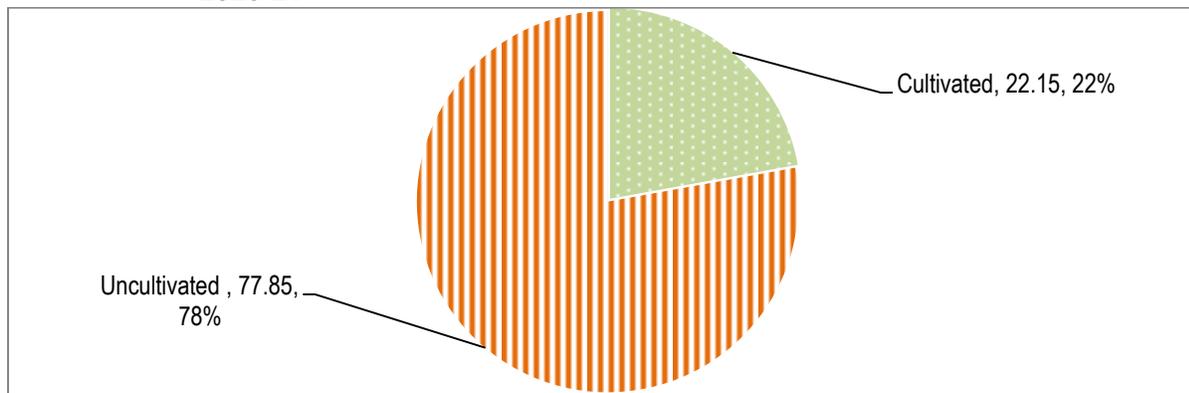

### Agriculture

Agriculture is still the largest sector of the economy of Pakistan in terms of labour participation and as such livelihood of the majority of the population directly or indirectly depends on it. It is major contributor to the employment and foreign exchange earnings. In addition to that, it provides industrial raw material, hence growth in this sector has multiple linkages with overall economy.

#### Land Utilization

Khyber Pakhtunkhwa has 8,367 thousand hectares area out of which 1,853 thousand hectares is reported as cultivated area and 6,514 thousand hectares is reported as uncultivated area in 2020-21. The net area sown during 2020-21 was 1,220 thousand hectares of total cultivated area. Trend analysis of data indicates that the area sown more than once is slightly increased since 2017-18 (KP Development Statistics). The share of "Area sown more than once" was about 32% of total cropped area during 2020-21 whereas in 2008-09 it was estimated to be 30%.

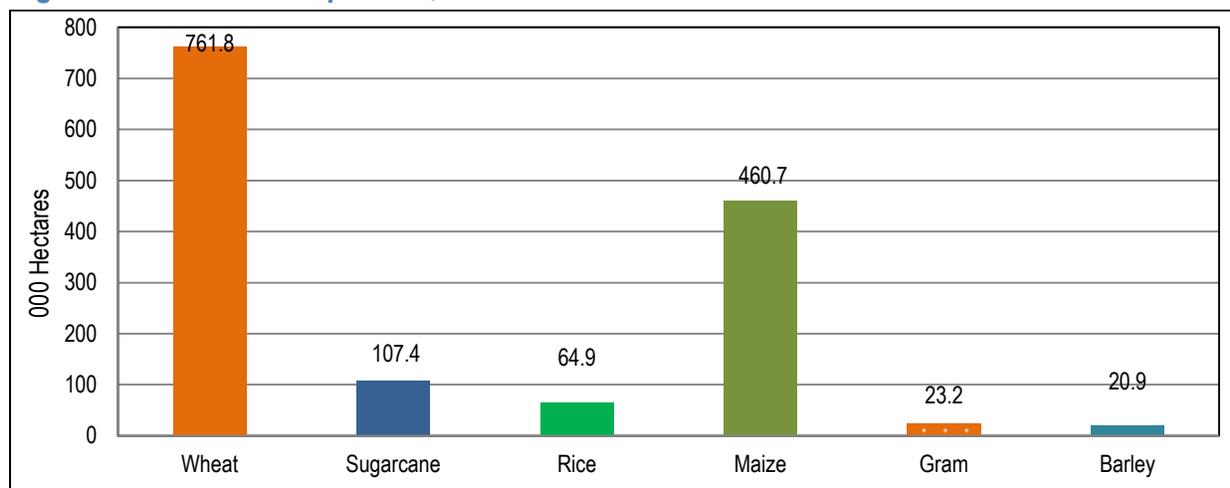

**Figure: 3.1 Percentage share of Cultivated/Uncultivated Area, Khyber Pakhtunkhwa, 2020-21**

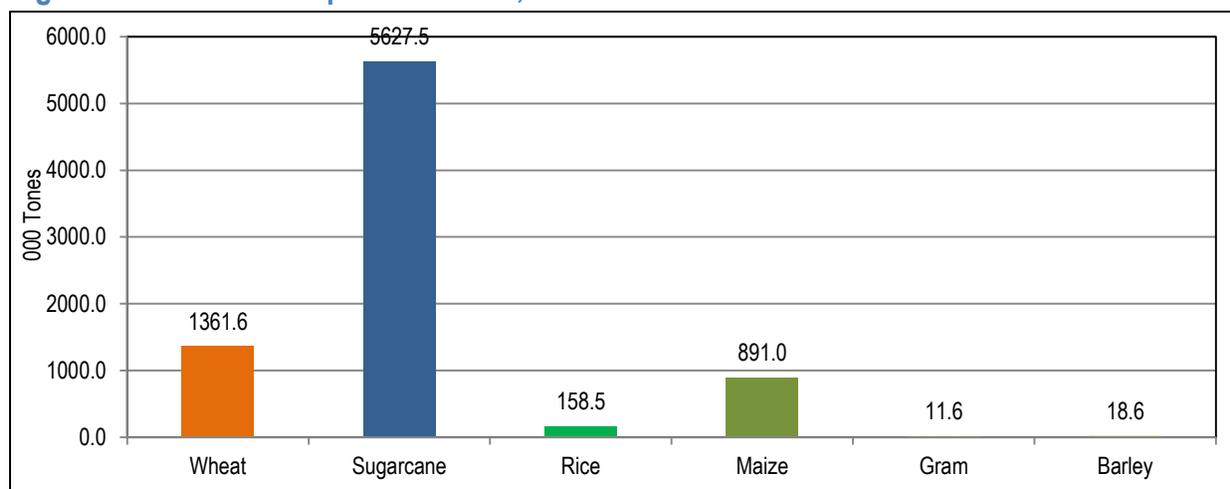

#### Area and Production of Agriculture Crops

The largest segment of the cultivated area 761.8 thousand hectares went to wheat crop during 2020-21 followed by Maize 460.7 thousand hectares, Sugarcane 107.4 thousand hectares, Rice 64.9 thousand hectares, Tobacco 27.9 thousand hectares, Gram 23.2 thousand hectares and Barley 20.9 thousand hectares (Table 3.04).

**Figure: 3.2 Food Crops Area, 2020-21**

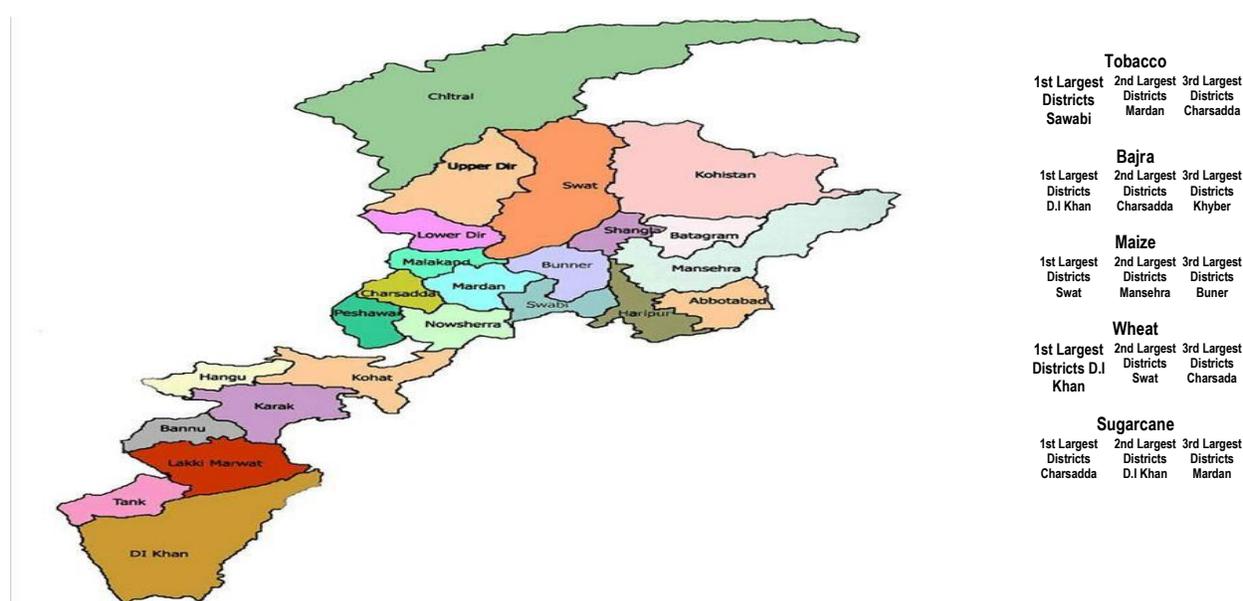

**Figure: 3.3 Food Crops Production, 2020-21**

Major production clusters of wheat exist in southern Khyber Pakhtunkhwa due to large cultivation areas available in those larger districts. Dera Ismail Khan is the largest wheat producing district contributing 11.3% of province's total production. It is followed by Swat and Charsadda that accounted for 8.6% and 6.9% share respectively (Table 3.07). For maize, Swat is the largest district that supplied 13.23% of the province's total maize production in 2020-21 (Table 3.16). Mansehra and Buner were the next two largest maize producing districts accounting for 10.7% and 8.3 % shares of the total maize production of Khyber Pakhtunkhwa. Charsadda, D.I Khan and Mardan are the first, second and third largest sugarcane producing districts accounting for 32.1%, 26.5% and 22.7% share respectively of the provincial sugarcane production in 2020-21 (Table 3.13). In 2020-21 largest production clusters of Jowar is in district D.I Khan (Table 3.22), whereas Barley are produced in the large quantities in districts Chitral and Bajur respectively (Table 3.24).

Sawabi is the largest tobacco producing district accounting for 53.8% of province's total production in 2020-21, it was followed by Mardan and Charsadda as the second and third largest tobacco producing districts, respectively-holding 22.7% and 13.7% shares of total provincial production (Table 3.31). For bajra, Dera Ismail Khan is the largest district that contributed 41.8% of the Khyber Pakhtunkhwa's total production in 2020-21 (Table 3.37). It was followed by Charsadda which accounted for 29% share of total bajra production in the province. The crop experienced significant increase in area under cultivation and yield. It might be achieved due to favorable weather conditions, better management, timely availability of quality inputs and higher economic returns. Dera Ismail Khan was the largest rice producing district (Table 3.10), moreover it was also among the largest producer of Gram, Rapeseed & Mustered (Table 3.19 & Table 3.28). Thus, Dera Ismail Khan held the largest share in the total provincial production.

# EDUCATION

# KEY FINDINGS OF EDUCATION

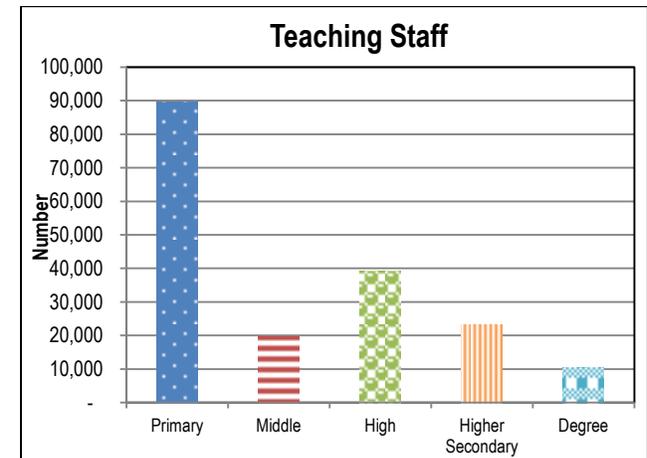

## Institutions by Level (2020-21)

## Enrolment by Level (2020-21)

## Teaching Staff by level (2020-21)

## Chapter-4

### Education

This section explores annual data relating to student enrolment and number of teaching staff of educational institutions, as well as literacy rates. Education plays a vital role for social mobilization of household and the formation of developed society. It helps to improve the individual skills and capabilities moreover, it also sets a path for the better future. Data relating to education is essential for monitoring the progress of the economic growth, living standards, and progress of Sustainable Development Goals (SDGs). SDG 4 calls for ensuring inclusive and equitable quality education and to promote lifelong learning opportunities for all, which is indeed a critical goal and considered as a key enabler under the SDGs framework. School education is imparted in two types of schools i.e. formal and non-formal. Formal schools include all institutions run by the Secondary Education Department (SED), as well as other organizations of the provincial and federal governments within province. Non-formal schools or institutions are set up to give a second opportunity to children who have either missed schools or have been dropped out of them. Education data covers the following areas:-

- Primary School is an institution comprising first to five grades of educational system.
- Middle School is an institution comprising first to eight grades of educational system.
- High School is an institution comprising first to ten grades of educational system.
- Higher Secondary School is an institution comprising first to twelve grades of educational system.
- Intermediate College is an institution comprising of F.Sc./F.A/ICS of educational system.
- Degree College is an institution comprising of B.Sc./B.A/B.Com etc. of educational system.
- Result Statistics: Data regarding number of candidates appeared/passed by sex for matriculation and intermediate level has also been collected with the help of Boards of Intermediate & Secondary Education (BISE).

Article 25-A of the Constitution of Pakistan 1973<sup>1</sup> states that, “The State shall provide free and compulsory education to all children of the age of five to sixteen years in such manner as may be determined by law”. In Khyber Pakhtunkhwa, The Khyber Pakhtunkhwa Free and Compulsory Primary/Secondary Education Act, 2017 was enacted to be compliant with the constitutional provision for ensuring access to free and compulsory education<sup>2</sup>. The Government of Pakistan has also ratified the implementation of SDGs 2030 in particular SDG-4 which envisions to “Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all” as discussed already.

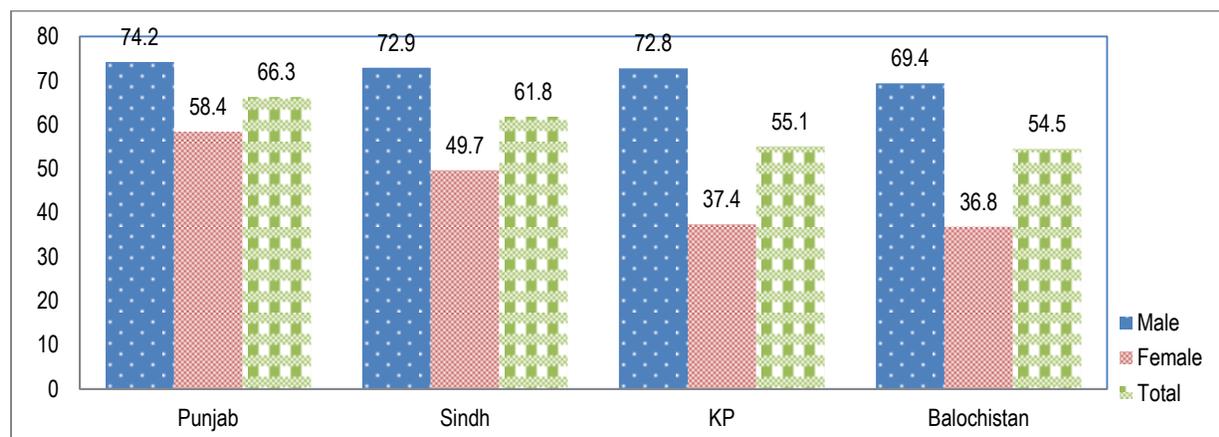

---

<sup>1</sup> The Gazette of Pakistan, Extr. Pt.1, Constitution (Eighteenth Amendment) Act 2010, Act No X of 2010, P 267, 20th April 2010.

<sup>2</sup> The Khyber Pakhtunkhwa Free Compulsory Primary/Secondary Education Act 2017. Act XII of 2017. (First published after having received the assent of the Governor of the Khyber Pakhtunkhwa in the Gazette of the Khyber Pakhtunkhwa, (Extraordinary), dated the 26th April, 2017

Khyber Pakhtunkhwa represents 14.69% of Pakistan's total population. Out of total 30.51 million population of KP, 10 million are the children between the ages 5 to 16 years, which accounts for nearly 30.6% of total population of KP<sup>3</sup>. According to the LFS-2020-21 total literacy rate in KP was 55.1% when disaggregated by gender it was found that literacy rate of male was 72.8% while for females it was 37.4%. Khyber Pakhtunkhwa has the lower literacy rate as compared to Punjab and Sindh province.

**Figure: 4.1 Literacy Rate by Province (10 Years and Above)**

## Educational Institutions

The number of male primary schools is reported as 16,079 in 2020-21 as compared to 14,770 in 2010-11 indicating annual growth rate of 8.86%. Similarly numbers of female primary schools have increased from 7,838 in 2010-11 to 10,546 in 2020-21, registering a positive annual growth of 2.73%. Middle schools for male are reported as 1,527 in 2010-11 which increased to 1,743 in 2020-21, while females middle school are reported to be 1,013 in 2010-11 compared with 1,386 in 2020-21, indicating 1.21% growth for males and 2.89% females which is a good sign. Nevertheless, much more schools are needed to cater the needs of the province and to reduce out of school children. High level schools for males are reported as 1,229 in 2010-11 which soared to 1,720 in 2020-21, while female high schools reported as 530 in 2010-11 has jumped to 921 in 2020-21, which shows an annual growth rate of nearly 5.14% between two the periods for female schools.

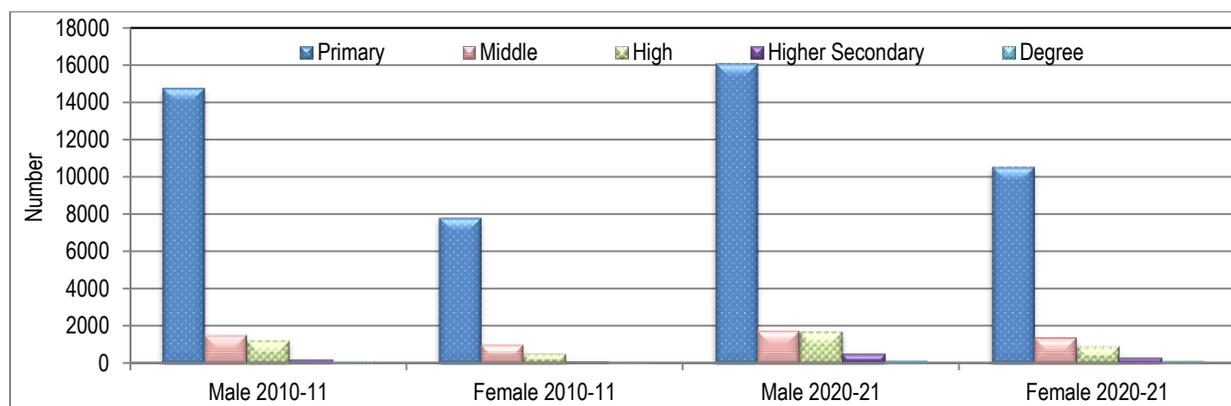

**Table: 4.1 Institutions by Level & Gender**

Level/Sex	Institution			
	2010-11		2020-21	
	Male	Female	Male	Female
Primary Level	14,770	7,838	16,079	10,546
Middle Level	1,527	1,013	1,743	1,386
High Level	1,229	530	1,720	921
Higher Secondary Schools	201	99	488	275
Degree Level	85	49	129	113

**Figure: 4.2 Number of Institutions by Level and Gender**

### Enrolment

Enrolment of male students at primary level is reported as 1.580 million in 2010-11 compared with 1.934 million in 2020-21, while female enrolment at primary level is reported as 1.196 million in 2010-11, while in 2020-21 it is reported as 1.609 million which shows positive trend over time for both male and female enrollment rates. Likewise middle school enrolment for both males and females is indicating upward trajectory positive trend is observed at high and intermediate while negative trend is observed at degree level enrolment for both males and females.

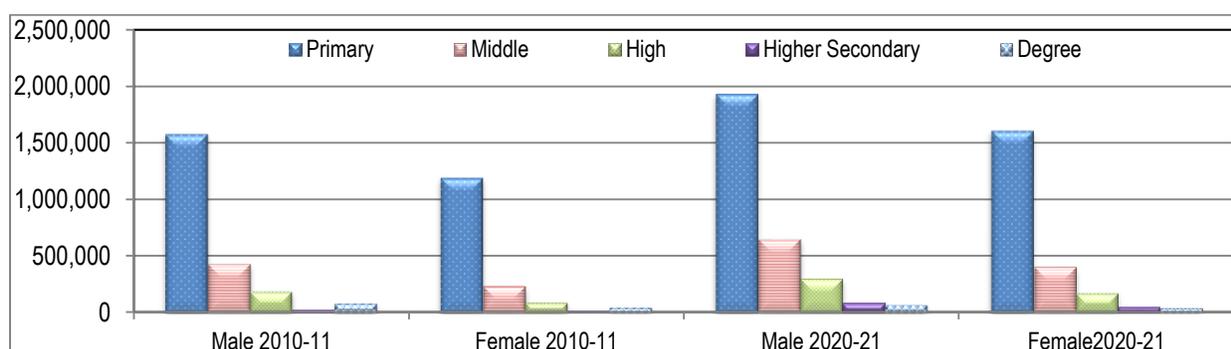

**Table: 4.2 Enrolment of Student by Level & Sex**

(Number)

Level/Sex	Enrolment			
	2010-11		2020-21	
	Male	Female	Male	Female
Primary Level	1,580,174	1,196,468	1,934,805	1,609,544
Middle Level	432,535	237,521	652,078	406,581
High Level	186,107	91,547	300,502	173,371
Higher Secondary Schools	23,424	15,993	83,857	43,730
Degree Level	78,246	43,409	64,602	40,852

# Chapter-5

## Health

This chapter covers the data in respect of the Number of Health Institutions, Number of Beds in Health Institutions, Hospitals, Dispensaries, T.B. Clinics, Rural Health Centers, Basic Health Units, Sub-Health Centers and Maternity & Child Health Centers located in Khyber Pakhtunkhwa and administered by either Health Department or Home Department. It goes without saying that healthy population of a country is critical factor for its economic growth, whereas poor health adds to poverty due to the massive cost of illness-measured sometimes using disability-adjusted life years (DALY). Poor health also diminishes learning capacity and ability during childhood. This chapter also examines key indicators on health at provincial and district level to explore the progress to scale up the coverage of health facilities as per the requirements.

Health is centrally positioned with agenda 2030, with one comprehensive goal-SDG 3, which envisions ensuring healthy lives and promoting well-being for all at all ages". It has explicit linkages with many other goals. The agenda 2030 thus has major ramification for the health sector, and its realization will entail the development of coherent, integrated approaches and an emphasis on equity and multi-sectorial action.

### i) Health Institutions

A health institution is defined as an institution which provides health services of curative and preventive care to all/specific class of the public as outdoor/ in-door patients. In Khyber Pakhtunkhwa, basic health units and rural health units provide the basic health facilities at urban and rural level, respectively. Detail of health institutions of public sector is as under.

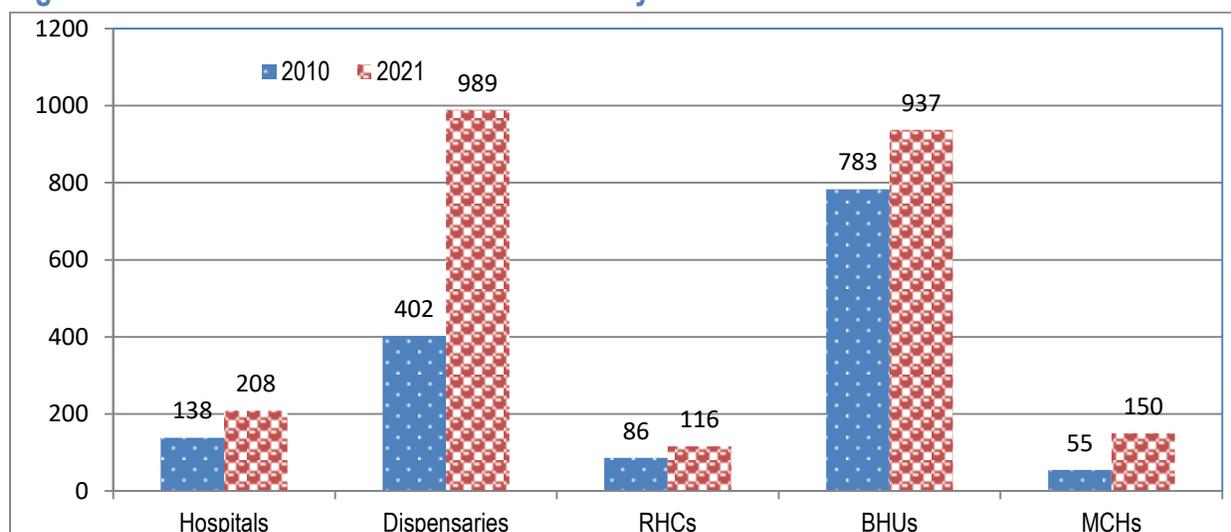

**Table: 5.1 Number of Health Institutions in Khyber Pakhtunkhwa**

(Number)

Institutions/Beds	2010		2021	
	Institutions	Beds	Institutions	Beds
Hospitals	138	13,912	208	21,324
Dispensaries	402	66	989	-
Rural Health Centers (RHCs)	86	1,435	116	1,648
Basic Health Unit (BHUs)	783	-	937	-
Maternal and Child Health Centers (MCHs)	55	-	150	-

**Figure: 5.1 Number of Health Institutions in Khyber Pakhtunkhwa**

## ii) Hospitals

Hospital is an institution having ten or more than ten beds. A hospital is an institution providing patient treatment with specialized health services, auxiliary healthcare staff and medical equipment. The number of hospitals reported in the Khyber Pakhtunkhwa province was 138 in 2010 which increased to 208 in 2021 indicating an increase of 50.7%. No doubt, the number of beds has been added but they are not enough to meet ever increasing needs of growing population of the province. When looking at this issue from the perspective of population, it is found that population per hospital beds declined from 1,598 in 2010 to 1,451 in 2021, which indicates availability of more beds per hospital but less number of beds for patients between two periods. Peshawar district provides the maximum health facilities to the people in the province having 22 hospitals followed by D. I Khan district with 12 hospitals. In contrast, districts in KP having least number of hospitals are Battagram (2), Mohmand (3), Buner, Chitral & Upper Dir (4) respectively as reported in 2021, see table 5.01.

## iii) Dispensaries

A dispensary is an institution having less than ten beds. A dispensary is normally supervised by MBBS doctor and supported by a Lady Health Visitor, dispenser, midwife, aya, chowkidar and sweeper. The hospital and dispensaries have facility to admit the patients in need of continued medical care or surgical treatment. There are 989 dispensaries in 2021 as compared to 402 dispensaries reported in 2010 in KP, indicating an increase of 146.02% between two periods (Table 5.01).

#### **iv) Basic Health Unit (BHUs)**

It is the first level of health care and considered to be essential to maintain adequate health and protection against disease. Typically, each union council has one BHU which has 2 beds but in some cases there are two facilities for facilitating catchment population of union council.

#### **v) Rural Health Centers (RHCs)**

BHUs are present in almost all rural areas across Khyber Pakhtunkhwa. They have limited usefulness for patients who are seeking slightly advanced but not specialized care. To serve such patients, the health system has established a tier of facilities known as RHCs. The RHCs are better equipped than BHUs to manage minor emergencies and surgeries. This is envisaged as a health facility that is open 24/7. There are 116 RHCs and 937 BHUs reported in 2021 (Table 5.01, year 2021).

#### **vi) Maternal and Child Health Centers (MCHs)**

Maternal and child health centers are managed by Lady Health Visitors and assisted by a facility based trained traditional birth attendant, which provide neonatal and child health care services. These Health services including reproductive health and family planning are often located in urban and large rural areas. There are 150 MCHs reported in 2021 as compared to 55 reported in 2010 indicating an increase of roughly three times in MCHs over 11 years period in KP (see relevant years in table 5.01).

## OTHER INDICATORS

# KEY FINDINGS ON CRIME, ROAD ACCIDENTS, COMMUNICATION, ELECTRICITY & GAS

## Crime by Types 2021

## Road Accident 2021

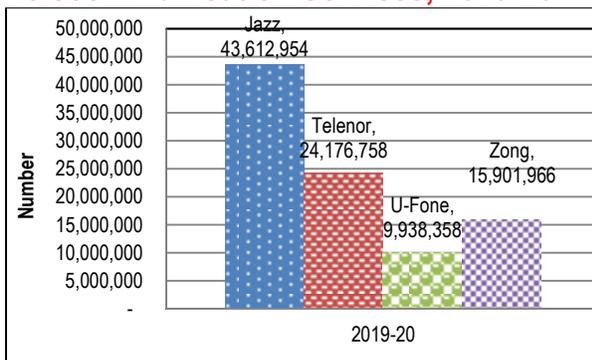

**Total 4,314**

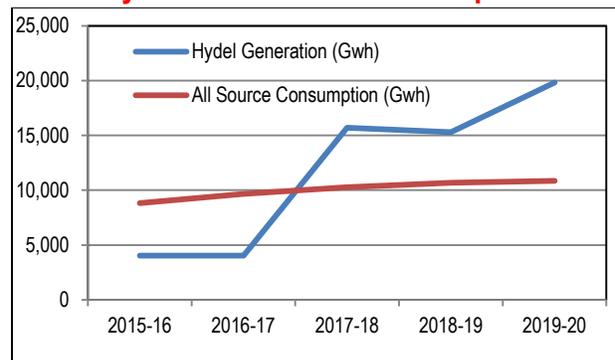

**Fatal 1,129**

**Non-Fatal 3,185**

## Telecommunication Services, 2019-20

## Electricity Generation and Consumption in KP

# Chapter-6

## Other Indicators

This chapter covers the remaining socio economic indicators like Crime, Road Accidents, Telecommunication use, Electricity Generation and Consumption, Gas Connections by type and Consumption, Number of Post Offices and Police Stations etc. (See tables 6.1 to 6.12)

### Public Safety

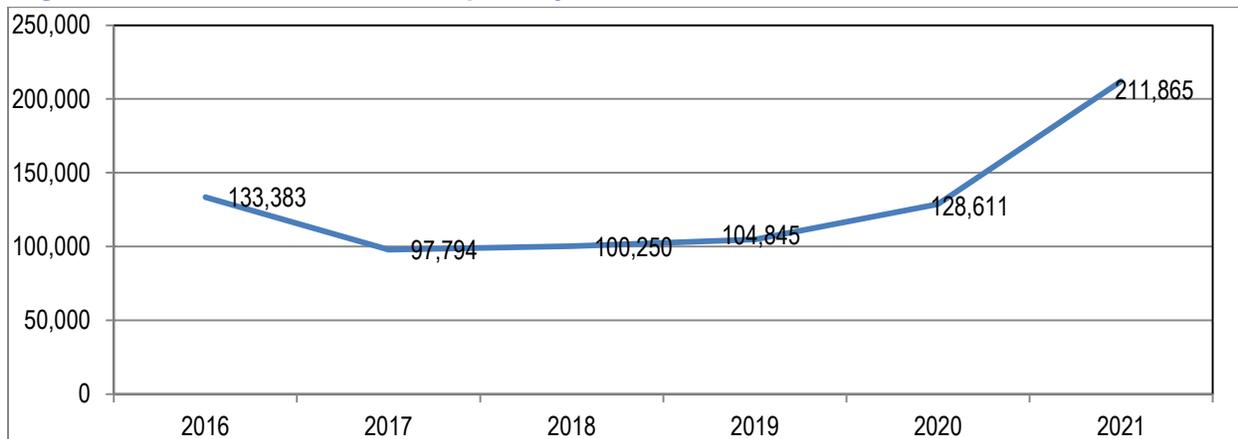

#### Crimes

Pakistan Bureau of Statistics collects data on crime statistics in order to make policy relevant information for future planning & programmes. Further, the crime information system aims to enhance the public safety measures in the country. Data captured is considered only for those persons who were brought into formal contact with police investigation. Number of crimes reported in the police stations during the year, however, does not capture the data in respect of the number of persons involved in the crimes, and there may be other crimes which may go unreported.

Number of registered crimes by districts is provided in table 6.01. Crime by types is given in subsequent tables. Big cities like Peshawar, Bannu and Swabi are particularly vulnerable to crime. In 2016 number of reported crimes was 133,383 which reduced to 97,794 in next year. However, from 2018 to onward it kept an increasing trend, and, in 2021 it soared to 211,865.

Crime can be classified into several categories based on their nature and severity. The four main categories of crime are crimes against persons, crimes against property, traffic offenses, and other crimes. Crimes against persons include offenses such as homicide, assault, and kidnapping. Crimes against property involve offenses such as theft, burglary, and vandalism. The category of other crimes includes offenses such as drug offenses, white-collar crimes, and public order offenses. Each of these categories has numerous subcategories that can further classify different types of crime. Murder which comes under category of crime against person is a heinous crime. It has been observed in 2021 that maximum number of murders i.e. 452 (13.98%) were reported in Peshawar district followed by Bannu with 234 (7.24%) and 201 (6.22%) in Swabi as far as top districts with most reported murder cases are concerned. However, these rates are not adjusted for various factors such as population size, crime reporting tendencies etc. In contrast districts with lowest reported murders are Chitral (13), Batgram (27) and Kuram (28).

**Figure: 6.1** Number of Crimes Reported years 2016 to 2021

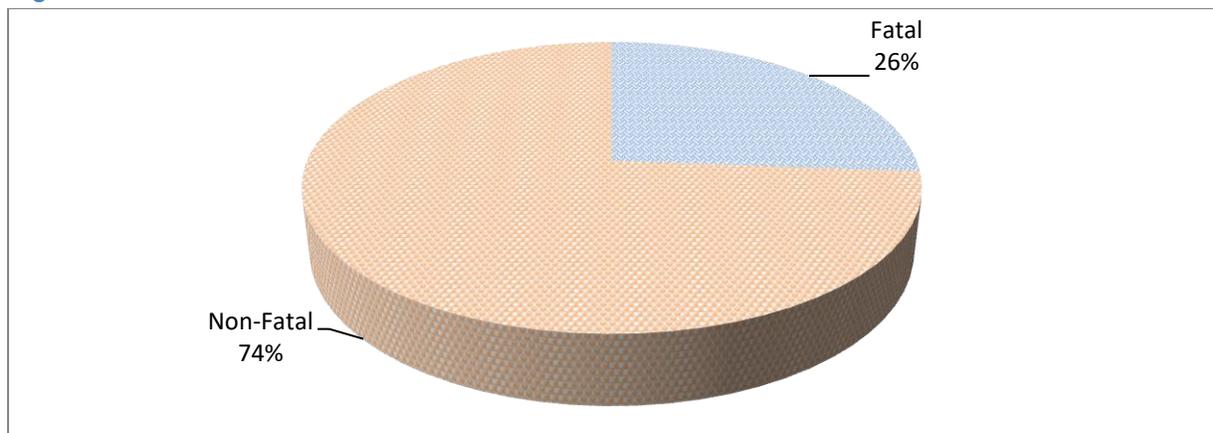

### Fatal Accidents

Fatal accidents refer to those incidences where the death occurred on the spot or where the victim succumbed to injuries later on.

### Non-Fatal Accidents

Non-Fatal accidents refer to those in which no person was killed but in which one or more persons were seriously or slightly injured.
